

Open Size : 390(W) x 600(H) mm ; Folded Size : 100(W) x 40(H) mm ; PAPER : 60gsm Maplitho Paper **BOOKLET TO BE SEALED WITH SELF ADHESIVE TAPE** Pharmacode Size: 10x10mm **SAP CODE : 650006091** 

## FRONT

- **Do not** twist or bend the gray needle cap • **Do not** hold the prefilled syringe by the plunger rod.
- **Do not** put the gray needle cap back onto the prefilled syringe.

## **Step 3: Inject the dose**

- **A** Pinch the cleaned injection site to create a firm surface.
- ① Keep skin pinched while injecting.

- **B** Hold the pinch. Insert the needle into the skin between 45 to 90 degrees.
- **Do not** touch the cleaned area of the skin.
- **C** Using slow and constant pressure, push the plunger rod until it reaches the bottom.
  - The plunger must be pushed fully in order to administer the full dose.
- **D** Once the entire dose has been delivered, the needle safety guard will be triggered and either of the following actions can be followed:
- Release the plunger until the entire needle is covered and then remove the needle from the injection site.
- Or
- Gently remove the needle from the injection site and release the plunger until the entire needle is covered by the needle safety guard.

After releasing the plunger, the needle safety guard will safely cover the injection needle.

- Once the needle has been removed from the injection site dispose of the syringe as per Step 4.
- If the needle safety guard is not activated or only partially activated, discard the product (without replacing the needle cap) as in Step 4.
- If your injection is given by another person, he or she should also be careful when removing the needle from your skin in order to prevent accidental needlestick injury and possible infections.
- When you remove the syringe, if it looks like the medicine is still in the syringe barrel, this means you have not received the full dose. Call your healthcare provider right away.

**E** - Examine the injection site. If there is blood, press a cotton ball or gauze pad on the injection site. Do not rub the injection site. Apply an adhesive bandage if needed.

### **Step 4: Dispose of supplies**

- **A** Put the used prefilled syringe and other supplies in sharps disposal container right away after use. Do not throw away the syringe in the household trash.
- If you do not have sharps disposal container, you may use a household container that is:
- Made of heavy-duty plastic
- Can be closed with a tight-fitting, puncture-resistant lid without sharps being able to come out
- Upright and stable during use
- Leak-resistant
- Properly labeled to warn of hazardous waste inside the container
- **B** When your sharps disposal container is almost full, you will need to follow your community guidelines for the right way to dispose of your sharps disposal container. There may be state or local laws about how you should throw away used needles and syringes. For more information about safe sharps disposal, and for specific information about sharps disposal reference to local guidelines in the state that you live in.

**Important:** Keep the syringe and sharps disposal container out of the reach of children.

- **Do not** reuse the prefilled syringe.
- **Do not** recycle prefilled syringes or throw them into household waste.

### Manufactured By:

**Biocon Biologics India Limited,** Block No. B1, B2, Q13 of Q1 and W20, Unit S18, 1st Floor, Block B4, Special Economic Zone, Plot No; 2, 3, 4 & 5, Phase-IV, Bommasandra-Jigani Link Road Bommasandra Post, Bengaluru - 560 099, India.

Marketed by:

Mylan Pharmaceuticals Private Limited. Plot No. 1-A/2, MIDC Industrial Estate, Taloja, Panvel, Dist.-Raigad - 410208, Maharashtra, India.
